

Meet Andy Griffin

Andy, recently promoted to Partner at Hall Kistler, is the leader of our audit and assurance team. In addition, he serves on various internal firm committees, including those focused on oil and gas, manufacturing, and nonprofit organizations. Andy's 20 years of experience providing clients with superior service while also keeping up to date on the latest changes in accounting and auditing consistently elevates the firm's standards and effectiveness.

In his spare time, along with basketball and bicycling, Andy enjoys collecting items related to Canton and President William McKinley, as well as visiting historical sites and museums. In fact, two of his goals related to this include eventually visiting the grave of every U.S. President and setting foot in each one of the 50 states.
